DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

2. Claims 28-35 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. It is not clear wherein the specification teaching of the limitation: a storage node shape with a first portion of the storage node shape overlying a conductive via structure, wherein the storage node shape is located in an opening in an insulator layer, and wherein the conductive via structure contacts a source/drain region of an underlying metal oxide semiconductor field effect transistor (MOSFET), and wherein a second portion of the storage node shape overlying portions of a top surface of the insulator layer.

Election/Restrictions

3. Applicant's election of claims 28-35 in the reply filed on 3/22/05 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).
